Dear colleagues

On behalf of the Croatian Society of Intensive Care Medicine it is my great pleasure and honour to welcome you to the International Congress of Intensive Care Medicine, which is being held in Pula, Hotel Histria Plaza, April 28.-30. 2023.

The Congress is organized by the Croatian Society of Intensive Care Medicine as a part of European Society of Intensive Care Medicine.

Intensive care medicine is a rapidly developing field of medicine, and practicing physicians need to keep up with all the advances brought by new technologies. The mission of this congress is to provide all the specialists and researchers new insights in the current state of the art treatments, technologies and drugs.

The scientific programme is intended for anaesthesiologists, intensivists and other physicians interested in broad field of intensive care medicine.

Official languages of the Congress are Croatian and English. Accepted papers will be published in the Journal of Croatian Medical Association – “Liječnički Vjesnik”.

Congress participation will be honoured by the Croatian Medical Chamber (www.hlk.hr) with 15 CME points for passive participation and 20 CME points for active participation.

In addition to education on current research in intensive care medicine through conferences and publications, we strive to promote on site practical education for medical students, residents and health professionals.

The industrial exhibition is an opportunity for you to network and to keep up to date with the latest pharmacological and technological developments. Each sponsor company is a supporter of the Congress, and we would like to thank them all for their commitment and contribution.

We sincerely hope that you will enjoy both the educational value of the programme and the unique atmosphere of the historical City of Pula.

Professor Jasminka Peršec, MD, PhD

Congress President

President of the Croatian Society of Intensive Care Medicine
